### Maintain Bowel Regularity

Next To Nature® is a gentle colon cleanser that supports normal bowel function. Next To Nature® is not a harsh laxative, but rather a natural aid to regularity. You can rely on it to work “with” your body to support and regulate your system in a comfortable manner. An increasing number of people prefer a natural product, rather than a chemical laxative when their colon is sluggish. Our concentrated, enzyme-active Aloe offers gentle relief without the embarrassing feeling of urgency.

Establishing regular bowel movement is important to your health. Your colon is the depository for all waste material after food nutrients have been extracted. The body normally excretes waste in 18 to 24 hours. Harmful toxins can form after this period. Daily bowel movements promote good colon health. Remember to exercise, drink plenty of fluids and eat high fiber foods. When these efforts don't bring results, Next To Nature® Tablets or Capsules can be a godsend for those who need additional help.
